

1) You will receive 2 separate plugin links in HTML format.

The 1st link will provide the visual link to your exoclass.com published group list.

The 2nd link will direct to a JavaScript file, which will appropriately show the group list in your website.

2) The links (in HTML format) have to be added to your Website's HTML file in the specific place that you want your clients to see as "the registration page". The plugin takes up 100% of your maximum web width, thus you have to make sure that your page is wide enough to fit

3) iFrame and Script links **should not be edited**, as they are meant only for your companys' group list.

4) In the picture below you can see in what order the HTML iframe and script tags should be placed (marked with a red rectangle)

5) The changes should be uploaded to your web server, after which check if everything is working correctly.

```
▼ <div id="div_block-5-144" class="ct-div-block"> flex
  ▼ <div id="code_block-3-144" class="ct-code-block">
...
  ▶ <iframe id="bureliai-iframe" src="https://exoclass.com/embed/provider/5/group-management" style="border: none; width: 100%; height: 895px;"></iframe> == $0
  <script src="https://exoclass.com/embed/js/resizer/embed-resizer.js"></script>
  </div>
</div>
</div>
```
